AAAC Sponsorship Program 2024

The Association of Accrediting Agencies of Canada (AAAC) was founded in 1994 as a national network of professional education accrediting bodies. It provides a collaborative forum and a collective voice for the community which assesses the quality of professional higher education programs. AAAC advances the knowledge, skills, and good practices of accreditors, and communicates the value of accreditation as a means of enhancing educational quality.

Composed of 24 accrediting agencies covering a wide variety of professions, the AAAC's membership plays a critical role in setting educational standards across the country.

Your sponsorship will help the AAAC achieve its Goals:

- Provide a forum for networking and information exchange for accrediting agencies and those organizations with an interest in accreditation;
- Identify and promote good practices for accreditation standards and processes;
- Monitor and research matters of common interest to our members;
- Advance the expertise of Canadian professional education accrediting agencies;
- Provide a mechanism for continuing education for individuals and organizations with accreditation responsibility.
